

Drone Surveys & Inspections

Finitas means 'with an end', and that principle sits at the heart of how we work. We look beyond the immediate design to deliver practical engineering solutions that help get projects built.

Safer inspections. Better project visibility.

Our drone services provide high-quality aerial imagery for building inspections and project monitoring, helping reduce the need for work at height while giving project teams a clear view of progress on site.

Combined with our engineering expertise, we can capture, review and interpret the information needed to support informed decisions.

Our Services:

Aerial Inspections

Roofs, structures and inaccessible areas

Condition Surveys

Detailed imagery for defect and condition assessment

Site Surveys

Aerial site records and development surveys

Progress Monitoring

Construction progress and photographic records

Engineering Assessment

Survey information reviewed by experienced engineers

Aerial Photography

High-resolution imagery of sites and buildings

£1,000,000 Professional Indemnity & Public Liability Insurance.

Can provide fixed-fee or hourly rate.
